

# Your Go-to Microsoft Partner to Digitally Transform Your Property Operations

We help you transform your property operations with Microsoft Business Solutions, AI, and Domain 6 Industry-focused Accelerators.

## Top 3 Focus Areas for Real Estate Operators

### AI-Powered Predictive Maintenance & Smart Building Automation

Property operators are increasingly adopting IoT sensors and AI-driven predictive maintenance to reduce downtime, lower repair costs, and improve asset longevity. Smart building technologies will optimize energy efficiency, security, and space utilization, leading to cost savings and enhanced tenant experiences.

### Data-Driven Tenant Experience & Retention Strategies

With tenant expectations evolving, operators are leveraging AI-powered sentiment analysis, digital self-service portals, and personalized engagement strategies to improve satisfaction and retention. Automated lease tracking, flexible payment options, and seamless digital interactions will become standard in 2025.

### ESG & Sustainability Compliance for Long-Term Value

Regulatory pressures are driving property operators to implement sustainable energy solutions, carbon footprint tracking, and green certifications. Leveraging real-time sustainability analytics and AI-driven resource optimization, operators will reduce costs while meeting compliance and ESG goals.

## About Us

Domain 6 Inc. is a Microsoft partner whose primary purpose is to help leaders in real estate, construction, senior living, and professional services firms quickly enable their organizations with the right technology solutions.

**60+**

# Boost Your Standard Dynamics 365 Functionality with Domain 6 Accelerators

## Dynamics 365 Finance & Operations

With automated revenue recognition, multi-entity accounting, and AI-driven financial forecasting, D365 Finance & Operations helps operators streamline budgeting, maintenance planning, and operational expenses. The platform ensures compliance with IFRS 16, ASC 842, and local lease accounting standards, reducing audit risks and improving financial transparency.

## Dynamics 365 Sales

Microsoft Dynamics 365 Sales empowers property operators with intelligent tools to enhance tenant engagement, streamline leasing processes, and drive revenue growth. With AI-driven lead management, automated follow-ups, and predictive analytics, operators can efficiently attract and retain tenants while maximizing occupancy rates.

## Dynamics 365 Customer Service

The platform provides centralized service tracking, allowing operators to manage maintenance requests, tenant inquiries, and compliance issues efficiently. Automated workflows, chatbot support, and proactive notifications ensure that tenants receive timely updates on service requests and lease-related matters.

## Agreements Management

Streamline your lead to lease process and deliver transparency by giving your tenants access to their leases and billing information.

## Asset Management

Get a complete 360-degree view of the properties owned, funded or rented to help you keep track of assets' financials and assess the proper value of the property in play.

## Facilities Management

Provide bespoke customer service across all your facilities by using the power of IoT, smart resources scheduling, and workorder management.

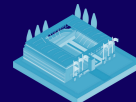

## Sustainability Management

Accelerate sustainability progress and business growth by bringing together a set of environmental, social, and governance (ESG) capabilities across the Microsoft cloud portfolio.

## Property Operator Agent

Manage portfolios, assets, and daily operations with ease and efficiency by using Copilot, trained specifically for real estate,

## Property Mgmt Power App

Streamline asset tracking, case handling, and master data management, with our comprehensive asset & case management solution.
